Rondels and Jewels are special order and made to order. Some **Dalles** are stocked regularly but may need to be special ordered.

Other Architectural Applications For Kokomo Products

You may not be aware, but Kokomo also supplies other products that can be used for out-of-this-world designer applications. Kokomo Dalles make for a very interesting backsplash or dividing wall. And Kokomo Jewels are made from beautiful glass colours pressed into shaped molds. For a fee, these molds can also be custom designed to suit your customer's desires. See the examples below - and please inquire for pricing and custom work.

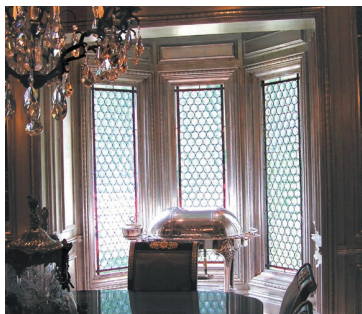

Photo: Beautiful bay window at an upscale restaurant. Made using Kokomo Rondels.

Photos: Kokomo Rondels.

Photo: Look at the colour and beauty added to the spaces here using Kokomo Dalles. Above, you can see the backsplash of a hotel coffee bar, and left, you can see them used to construct a modern bar or counter top. Ooh la la!

Photos: Pressed Jewels. Once trimmed with nippers, these jewels can make beautiful tiles or accents in any window. Any colour is possible, so sky's the limit!
