

**New From Spectrum - System 96®
Aventurine Packs and CutUps**

Introducing five new offerings from the wildly popular Aventurine glass family.

Aventurine Green Family Packs

SPC VPT-128AVSF

Each sheet of Aventurine Green provides a different glitter density level, so fusers can choose just the right amount of “bling” for their projects. One 12” x 12” sheet of each of the Green Aventurine sparkle densities: Light, Standard and Heavy.

Aventurine Variety Packs

SPC VP96-AV-3SF

A great way to sample all three dazzling Aventurine colours. Each pack provides one 12” x 12” sheet of the following colours: Green, Blue & Black Aventurine. Use them alone with a clear cap for a stunning 12 inch dish, or combine them with the System 96 coloured glass of your choice.

Aventurine Nippits™

SPC GN-1-AVMIXSF

Handy and cost-effective assortment of Green, Blue & Black Aventurine Glass Nippits. These (approximately) 2”x6” rectangles are perfect for nipping small shapes or cutting random pieces to add decorative sparkle to any fused design.

Sparkling Aventurine

Green Shamrock &

Gecko CutUps

(arriving late February)

Everything’s coming up green...and this new little Shamrock and Gecko are no exception. Cut from shimmering Aventurine Green, they’re bound to add a bright spot to any fusing project.

Gecko CutUp 6 pieces per pack.
