

New Product - LIVA Stained Glass Polish

LIVA
Stained Glass
Polish
Polishes your stained glass projects to the highest shine.

CH 103

12 fl oz Bottle

LIVA Stained Glass Polish is specifically designed to polish stained glass projects. LIVA polish can be applied to glass, lead, zinc, brass, copper and solder - raw or patinaed. LIVA Polish creates a lustrous shine, prevents oxidation of metals, and protects projects against harmful UV rays.

NOTE: We are still unable to get the Clarity Finishing Compound and it is still uncertain as to when this product will be available. Please give us your feedback on the LIVA product so that we know if it is working for you.
