

NEW PRODUCT & SPECIAL FEATURE - 6MM PATTERN GLASS

Listed below is Hollander Glass' line of 6mm pattern glass. 6mm lends itself to many more applications including tabletops, windows and doors, that 3mm and 4mm glass may be unsuitable for. For your convenience, we have also included the textured photos so that you may familiarize yourself with these patterns.

Product Code	Description	Thickness	Sheet Size	Case Qty

* Approximate size as sizes may vary from shipment to shipment.

GNA 0189/6
German Artista, Clear
A soft flowing and striating pattern, with minimal obscurity.

PIL 520/6
Pilkington Cotswold
A sophisticated uneven striated pattern resembling rain.

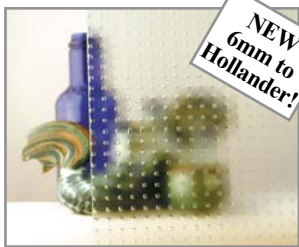

PIL 535/6
Pilkington Reeded 1/2"
An even ribbed pattern - reeds are 1/2" wide, and comes in 2 sheet sizes.

PIL 540/6
Pilkington Flemish
A soft undulating pattern, causing some distortion of view, with minimal obscurity.

GL 730
Glaverbel Flashed White Opal
A solid, glossy, white opal glass with maximum obscurity.

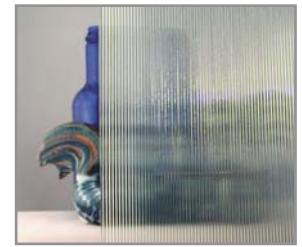

VGL 069/6
Masterglass Master-Carre
A geometric pattern of simple 2mm clear squares, on an extremely fine, even textured, translucent matt background.

VGL 070/6
Masterglass Master-Ligne
A clear ribbed pattern of simple 2-1/2mm lines, approximately 2 cm apart, on an extremely fine, even textured, translucent matt background.

VGL 077/6
Masterglass Master-Ray
A geometric pattern of 2mm x 24mm clear lines, on an extremely fine, even textured, translucent matt background - most obscure of the 6mm Masterglass patterns.

VGL 553/6
Vegla Narrow Reed 1/8"
A thin, even, ribbed pattern; reeds are 1/8" wide.

VACUUM SUCTION CUP HOLDER

Vacuum Suction Cup Holder TL GS102

- Aluminum suction cup
- Lifting capacity is 70 kg
